## 1. INTRODUCTION

This Statement of Intent is prepared in accordance with Section 64 and Schedule 8 of the Local Government Act 2002.

Westroads Limited (Limited) is a council-controlled organisation for the purposes of the Local Government Act 2002 and is registered under the Companies Act 1993.

Westroads Limited (or the Company) is a wholly owned subsidiary of Westland Holdings Limited.

This Statement of Intent covers the 3-year period commencing 1 July 2019.

## 2. COMPANY MANTRA

### **At Westroads “Excellence” is a way of life**

To achieve this, we use the following values to guide our activities and actions:

#### **We pursue improvement in all that we do**

- *Learning from our mistakes*
- *Looking for better ways*
- *Being innovative*
- *Embracing change*

#### **We are committed to the team:**

##### **Safety comes first**

- *Keep ourselves, our team and the public safe*
- *We all lead by example*
- *Have courage to correct unsafe behaviour*
- *Follow established procedures*
- *Ask if unsure*

##### **Respect goes a long way**

- *Respect ourselves, our team mates, clients and the public*
- *Respect the Company’s assets and image*
- *Trust our people to do the right thing*
- *Listen openly*
- *Respect and protect the environment*

##### **Value our people**

- *Together we achieve more*
- *“Please” and “Thanks” goes a long way*

- *Care enough to provide constructive feedback*
- *Develop our people through training, mentoring and support*
- *Provide opportunities for career advancement*
- *Reward competitively*

## **We are Performance Driven**

### **Plan and Communicate**

- *Understand the requirements in detail*
- *Plan using team knowledge*
- *Communicate effectively*

### **Always do our best**

- *Come to work to work*
- *Deliver the plan efficiently*
- *Do it right first time*

### **We Take Pride**

- *Lead by example*
- *Take pride in ourselves, our work and our Company*
- *Enjoy work and celebrate success*

## **3. THE OBJECTIVES OF THE COMPANY**

The principal objective of Westroads Limited is to operate as a successful business. This will be achieved by:

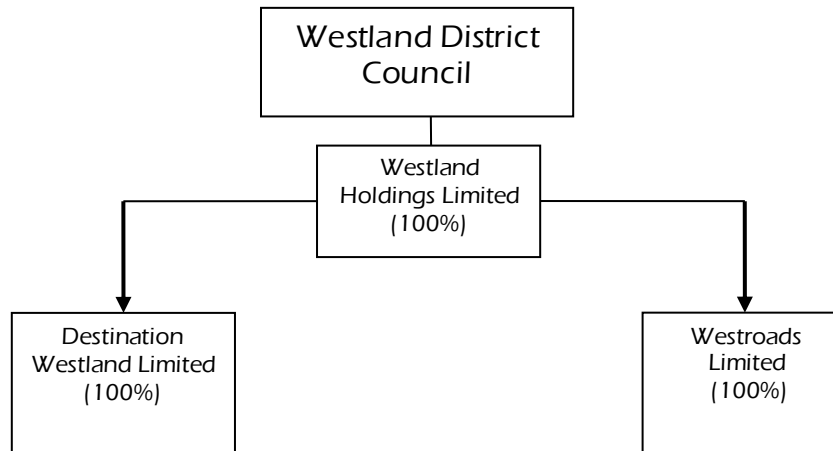

- Following the Company Mantra and Values

Other priority objectives of Westroads Limited are:

- Returning a distribution to shareholders that makes a significant contribution to the Westland District Council's (Council's) budgeted distributions from its Council-Controlled Organisations (CCO's).
- Maintaining a significant presence in Westland including employing locals and having equipment available throughout the district.
- Being successful in bidding for contestable contracts tendered by Council and other significant organisations and businesses.

#### 4. NATURE AND SCOPE OF ACTIVITIES

The Group structure is as follows:

The nature of Westroads Limited activities will be that of a general contractor and a trading organisation offering goods and services for sale and plant and equipment for hire. Its activities will include:

- a. Drainage, sewerage and water services - operation, installation, maintenance and repairs.
- b. Roads and footpaths, bridges, driveways and car parks - their construction, maintenance, marking, signing, repair and cleaning.
- c. Property maintenance and repairs and construction including plumbing, carpentry, joinery, painting and drain laying.
- d. Environmental services including refuse collection, litter collection, landfill operation, recycling, vegetation control, rural fire suppression, street cleaning and safety.
- e. Vehicle and equipment management services including maintenance workshops and assorted engineering services.
- f. The supply of goods, materials, services and equipment for sale or hire.
- g. Landscaping services including maintaining reserves, general horticultural, silviculture services and household rubbish maintenance and services.
- h. The manufacture and supply of crushed metal and aggregate.
- j. Any other relevant activity as determined by the Directors from time to time.

## 5. GOVERNANCE

The Company is governed by a four-member board of directors including:

Peter Cuff (Chairman)  
Mark Rogers  
Ross Pickworth  
Bryce Thomson

The director's role includes

- a. Strategic Governance
- b. Financial Management
- c. Management Performance Review
- d. Overseeing Tender Prices for Major Tenders

The board has a director rotation policy in place whereby 1 director retires each year in rotation. Directors are able to make themselves available for re-appointment.

Board evaluation will be conducted annually and facilitated by the Chair. Directors will consider training requirements annually to ensure that professional standards are adhered to.

## 6. PERFORMANCE TARGETS

### **Financial Performance Targets**

- The ratio of net profit before taxation and revaluations (before extraordinary items) to average shareholder funds shall be at least 10% for the 3 years commencing 1 July 2020.
- A return of an annual dividend to the shareholder within a range of 40 to 70% of the Company's net profit after tax, after adjusting for returns to shareholders via Subvention Payment.
- For the 2020/21 Financial Year the combined subvention and dividend target will be capped at \$500,000 to ensure adequate funds are available for investment in capital and to improve equity ratios in line with the Distribution Policy Clause.
- Compliance with statutory and regulatory requirements that will allow Westroads Limited, Westland Holdings Limited and the Westland District Council to comply with the Local Government Act.

### **Social Performance Targets**

Westroads Limited is committed to:

- Attracting and retaining the best people for our organisation.
- Maintaining a high level of transparent and effective communication with our Shareholder.
- Being an asset to the community through returns to the Shareholder and ultimately to the Westland District Council.
- Being an asset to the community by supporting local community initiatives.

- Providing employment in the district and ensuring the community receives competitive prices for work done.

To achieve this for Westroads Limited's people and communities:

- We utilise a wide range of training schemes via the industry training organisations to continuously extend the skills of our staff and ensure that they are up to date with professional and technical current practice. Performance reviews are undertaken for all management and staff on an annual basis.
- We are committed to work together to ensure safe and sustainable working conditions for our employees. The Company provides inoculations for employees and monitors hearing, eyesight, and lung functions to ensure we have a healthy staff.
- Protective equipment is issued and required to be worn by all staff.

### **Performance Measuring**

- The Company has the following Performance Measures regarding employees and safety: -
  - Number of full day time off workplace accidents and incidents - Target Zero
  - Number of incidents notifiable to Worksafe - Target Zero
  - Continue to Promote Zero harm – Safety first
- Training Expenditure as a percentage of Revenue Target - Target 0.8%
- Staff Turnover Rates – 15-20% Excluding Fixed Term and temporary workers

## **7. RATIO OF CONSOLIDATED SHAREHOLDERS FUNDS TO TOTAL ASSETS**

The ratio of consolidated shareholder funds to total assets shall be greater than 45 per cent.

Shareholders' funds are defined as the paid-up capital, plus any tax paid profits earned and less any dividends distributed to Shareholders. They include undistributed profits which have been accumulated in accounts known as either "Revenue Reserves" or "Capital Reserves".

Total assets are defined as the sum of all current assets, fixed assets, intangible assets and investments of the Company.

## **8. DISTRIBUTION POLICY**

Distributions will be paid, either by way of Dividends to Westland Holdings Limited or Subvention Payments to Westland District Council or Westland Holdings Limited in accordance with the annual Statement of Intent, as agreed with Westland Holdings Limited.

The degree of profit retention/distribution will be agreed annually with Westland Holdings Limited, subject to the following criteria:

- Westroads Limited will utilise Group losses to the maximum extent available and pay for the use of the losses at the current tax rate by way of Subvention Payments.
- The amount of any distribution shall take into account Westroads Limited's ability to fund future capital expenditure requirements, to maintain and expand its operations, to meet its obligations under the Companies Act 1993 and to address matters related to the debt structure of the company.

## **9. CAPITAL EXPENDITURE**

The board's policy is to replace plant and equipment on a "wear and tear" basis, with major items being submitted to the board for approval. Additional capital expenditure is approved by the board following a submission by management.

The approval of Westland Holdings Limited must be obtained for any significant purchases or developments in excess of \$750,000 for any one project, including the funding mechanism for the purchase or development.

## **10. PROCEDURES FOR ACQUISITION OF OTHER INTERESTS**

The Company will not subscribe for, purchase, or otherwise acquire shares in any company or other organisation without first being authorised to do so by special resolution of its Shareholders.

## **11. COMMERCIAL VALUE OF SHAREHOLDERS INVESTMENT**

The Director's estimate that the commercial value of the Shareholders' investment in Westroads Limited will be represented by the opening balance of Shareholders' funds. The Directors will advise the Shareholders on an annual basis if they believe the value to differ materially from this amount.

The value of the investment will be reassessed every three years by evaluating movement in asset values, in particular changes in land and improvements as recorded on the tri-annual government valuations.

## **12. RISK MITIGATION**

The Company shall develop a risk assessment methodology and document a risk management analysis together with strategies for mitigation of these risks.

The Company has a formal Fraud Policy in place, all Directors and staff are aware of this policy.

### 13. REPORTING TO SHAREHOLDERS

The following information will be available to Shareholders based on an annual balance date of 30 June.

#### 13.1 Draft Statement of Intent

On or before the 14<sup>th</sup> of February of each year, the Directors shall deliver to the Shareholders a Draft Statement of Intent with tracked changes which fulfils the requirements of clause 9 of schedule 8 of the Local Government Act 2002.

#### 13.2 Completed Statement of Intent

On or before the 15<sup>th</sup> of June of each year, the Directors shall deliver to the Shareholders a Final Statement of Intent.

#### 13.3 Half Yearly Report

On or before the 14<sup>th</sup> of February of each year, the Directors shall deliver to the Shareholders an unaudited report containing the following information as a minimum in respect of the half year under review:

- a) A revenue statement disclosing actual and budgeted revenue and expenditure, and comparative figures in second and subsequent half yearly reports.
- b) A statement of financial position at the end of the half year.
- c) A commentary on the results for the first six months together with a report on the outlook for the second six months with reference to any significant factors that are likely to have an effect on the company's performance, including an estimate of the financial result for the year based on that outlook.
- d) A report on non-financial performance measures.
- e) A copy of the Audit New Zealand management report for the previous year.

#### 13.4 Annual Report

By the 30<sup>th</sup> of September of each year, the Directors shall deliver to the Shareholders an annual report and audited financial statements in respect of the financial year ending on the preceding 30 June, containing the following information as a minimum:

- a. A Directors' report including a summary of the financial results, a review of operations, a comparison of performance in relation to objectives and any recommendation as to dividend.
- b. A revenue statement disclosing actual and budgeted revenue and expenditure, and comparative figures in second and subsequent annual reports.

- c. A statement of financial position at the end of the year.
- d. A statement of cash flows
- e. A report on non-financial performance measures
- f. An auditor's report on the above statements and the measurement of performance in relation to objectives.

#### 13.5 Annual Budget

An annual budget shall be provided for the coming financial year and the following two years, at such a time to enable it to be included within the Draft Annual Plan for the Westland District Council.

#### 13.6 Quarterly Report

A report containing financial and operational information as agreed between Westroads Limited and Westland Holdings Limited shall be supplied each quarter. These quarterly reports shall include commentary on the quarterly operations performance and future outlook of the Company and any special events likely to affect the Company's performance.

## 14. ACCOUNTING POLICIES

### REPORTING ENTITY

Westroads Limited is registered under the Companies Act 1993 and is domiciled in New Zealand. Westroads Limited is ultimately owned by Westland District Council.

The company is a Council Controlled Trading Organisation as defined in Section 6(1) of the Local Government Act 2002.

The financial statements of the Company have been prepared in accordance with the requirements of the Companies Act 1993 and the Local Government Act 2002.

The Company will Report and comply with all New Zealand International Financial Reporting Standards applicable to Tier 1 entities.

### BASIS OF PREPARATION

#### Statement of Compliance

The financial statements are prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP") and Tier 1 POE Accounting Standards. They comply with New Zealand International Financial Reporting Standards and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities.

#### Measurement Base

The financial statements have been prepared on a historical cost basis except for land and buildings which are revalued every three years. The next revaluation is due in June 2021

### **Functional and presentation currency**

These financial statements are presented in New Zealand dollars (\$), which is the Company's functional currency. All financial information presented has been rounded to the nearest thousand.

### **Use of estimates and judgements**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

- Depreciation and estimated useful lives of property, plant and equipment
- Employee entitlements
- Finance leases

### **SIGNIFICANT ACCOUNTING POLICIES**

Accounting policies set out below have been applied consistently to all periods presented in these financial statements.

The following accounting policies which materially affect the measurement of financial results and financial position have been applied:

### **PROPERTY, PLANT AND EQUIPMENT**

#### **Recognition and measurement**

Except for land and buildings, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land and buildings are measured at revalued amount less subsequent depreciation.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

#### **Subsequent costs**

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the profit or loss as incurred.

## Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated.

The estimated useful lives are as follows:

	2020
buildings	4-50 years
plant and equipment	1-20 years
office furniture and equipment	2-75 years

## Revaluation

Land and buildings are revalued with sufficient regularity to ensure that their carrying amount does not differ materially from fair value and at least every three to four years. All other asset classes are carried at depreciated historical cost.

The carrying values of revalued assets are assessed annually to ensure that they do not differ materially from the assets' fair values. If there is a material difference, then the off-cycle asset classes are revalued.

Revaluations of property, plant, and equipment are accounted for on a class-of-asset basis.

The net revaluation results are credited or debited to other comprehensive income and are accumulated to an asset revaluation reserve in equity for that class of asset. Where this would result in a debit balance in the asset revaluation reserve, this balance is not recognised in other comprehensive income but is recognised in the surplus or deficit. Any subsequent increase on revaluation that reverses a previous decrease in value recognised in the surplus or deficit will be recognised first in the surplus or deficit up to the amount previously expensed, and then recognised in other comprehensive income.

## Disposals

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposals are reported net in the surplus or deficit. When revalued assets are sold, the amounts included in revaluation reserves in respect of those assets are transferred to the accumulated surplus/(deficit) within equity.

## INTANGIBLE ASSETS

### Indefinite useful lives

Goodwill represents the excess of the purchase consideration over the fair value of the identifiable assets of the acquiree and is included in intangible assets. If the value of goodwill is lower than the net fair value, the difference will be recognised in the surplus or deficit.

### Definite useful lives

Mining licences that are acquired by the Company, which have finite useful lives, are measured at cost less accumulated amortisation and accumulated impairment losses.

Amortisation is recognised in the profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use. There are no remaining useful lives for the mining licences.

## **INVENTORIES**

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out principle, and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Metal inventory cost is calculated on a discounted sale value basis, as an approximation of weighted average cost. In the case of development land inventory, cost includes any development costs to date. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

## **Contract Assets and Contract Liabilities**

### **The nature of the adjustments resulting from the adoption of IFRS 15**

Revenue from Contracts with Customers and IFRS 9 Financial Instruments are described below:

IFRS 15 Revenue from Contracts with Customers (IFRS 15) IFRS 15 has replaced IAS 18 Revenue (IAS 18) and IAS 11 Construction Contracts as well as various Interpretations previously issued by the IFRS Interpretations Committee.

## **IMPAIRMENT**

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any objective evidence of impairment.

An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses directly reduce the carrying amounts of assets and are recognised in the profit or loss.

### **Impairment of Receivables**

The Company applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for trade receivables and contract assets. To measure expected credit losses on a collective basis, trade receivables and contract assets are grouped based on similar credit risk and aging. The contract assets have similar risk characteristics to the trade receivables for similar types of contracts. The expected loss rates are based on the Group's historical credit losses experienced over the three-year period prior to the period end. The historical loss rates are then adjusted for current and forward-looking information on economic factors affecting the Companies customers.

There is no impairment deemed necessary as the company are not expecting any credit losses.

### **Impairment of Contract assets and Contract liabilities**

Contract assets and contract liabilities were previously included within "trade and other receivables" and "trade and other payables" and disclosed separately as Work in Progress. Under IFRS15 these items are now combined and renamed as Contract assets

They arise from contracts enter that can span over the financial year and also reflect retention funds that are held by the client until such time as a certificate of completion has been signed off. It may take a up to 2 years to complete, because cumulative payments received from customers at each balance sheet date do not necessarily equal the amount of revenue recognised on the contracts.

### **Impairment of Goodwill**

The Company is required to test, on an annual basis, whether goodwill has suffered any impairment. The recoverable amount is determined based on value in use calculations. The use of this method requires the estimation of future cash flows and the determination of a discount rate in order to calculate the present value of the cash flows.

## **FINANCIAL INSTRUMENTS**

The Company categorises its financial assets and its financial liabilities as being at amortised cost.

### **Financial Assets**

The company's financial assets comprise cash and cash equivalents, and trade and other receivables. These are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market.

Financial assets are initially measured at fair value and subsequently measured at amortised cost using the effective interest method, less impairment.

### **Financial liabilities**

Financial liabilities comprise trade and other payables, borrowings, and advances. Borrowings are initially recognised at their fair value net of transaction costs, and subsequently measured at amortised cost using the effective interest method.

### **Interest-bearing borrowings**

Interest-bearing borrowings are classified as other non-derivative financial instruments.

### **Trade and other payables**

Trade and other payables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method.

## **GOODS AND SERVICES TAX (GST)**

All items in the financial statements are exclusive of goods and services tax (GST) except for receivables and payables which are stated with GST included. Where GST is irrecoverable as an input tax then it is recognised as part of the related asset or expense.

## **EMPLOYEE BENEFITS**

### **Defined contribution plans**

Obligations for contributions to defined contribution pension plans are recognised as an expense in profit or loss when they are due.

### **Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than pension plans is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted.

### **Termination benefits**

Termination benefits are recognised as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date. Termination benefits for voluntary redundancies are recognised if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

### **Short-term benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

## **LEASED ASSETS**

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases. The leased assets are not recognised on the Company's balance sheet.

## **PROVISIONS**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## **REVENUE**

NZ IFRS 15 Revenue from Contracts with Customers introduced a new revenue recognition model that recognises revenue either at a point in time or over time. It is based on the principle that revenue is recognised when control of goods and services transfers to the customer and is based on the fulfilment of performance obligations.

The company has applied the modified approach on transitioning to NZ IFRS 15 and has applied the standard on initial application being 1 July 2018. No material impact on these financial statements has been recognised as a result of adopting this standard.

As the Company has the right to consider corresponding directly with the value of performance completed to date, customer contract revenue is recognised consistent with the amount that the Company has a right to invoice. The Company is therefore exercising the practical expedient not to explain transaction prices allocated to unsatisfied performance obligations at the end of the reporting period.

### **Sale of Goods and Services – From 1 July 2018**

To determine whether to recognise revenue, the Company follows a 5-step process:

- 1 – Identifying the contract with a customer
- 2 – Identifying the performance obligations
- 3 – Determining the transaction price
- 4 – Allocating the transaction price
- 5 – Recognising revenue when/as performance obligation(s) are satisfied

Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers.

If the company satisfies a performance obligation before it received the consideration, the company recognises a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

### **Sale of Goods**

Revenue from the sale of metal stock for the agreed price is recognised when the company transfers the control of the goods to the customers. The goods represent a single performance obligation over which the control is considered to transfer at a point in time.

## **Revenue Contracts**

As soon as the outcome of a construction contract can be estimated reliably, contract revenue and expenses are recognised in the profit or loss in proportion to the stage of completion of the contract. Contract revenue includes the initial amount agreed in the contract plus any variations in contract work.

The stage of completion is assessed by reference to surveys of work performed. When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in profit or loss.

## **LEASE PAYMENTS**

Payments made under operating leases are recognised in the profit or loss on a straight-line basis over the term of the lease.

## **INCOME TAX EXPENSE**

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in other comprehensive income or equity, in which case it is recognised in other comprehensive income or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that they probably will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

## **CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term-highly liquid investments with original maturities of three months or less, and bank overdrafts.

Bank overdrafts are shown in current liabilities in the statement of financial position.

## **NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED**

The amendments to the following standards and interpretations are not expected to have a significant impact on the company's operations:

NZIFRS 16: Leases (effective for the financial year ending 30 June 2020)

The Company has not assessed the impact of the new standards therefore, it is unknown at this stage whether the following standards and interpretations will have a material impact on the company's operations.

## 16. FINANCIAL FORECASTS (\$000s)

### CONSOLIDATED

	Budget 2020/21	Forecast 2021/22	Forecast 2022/23
Gross Revenue	31,261,744	31,574,361	31,890,105
Cost of Sales	23,515,418	23,750,572	23,988,078
Gross Profit	7,746,325	7,823,789	7,902,026
Other Income	304,102	304,102	304,102
Administrative expenses	3,780,364	3,780,295	3,818,168
Depreciation	2,319,313	2,319,382	2,342,507
Finance costs	401,624	401,621	405,625
<b>Net Profit Before Tax</b>	<b>1,549,126</b>	<b>1,626,592</b>	<b>1,639,829</b>
Tax Expense	344,155	365,846	369,552
Subvention Payments	320,000	320,000	320,000
Net Profit for the Year	884,970	940,746	950,277
Other comprehensive income	Nil	Nil	Nil
Total comprehensive income for the year	884,970	940,746	950,277
<b>Other Performance Targets</b>			
Dividends	180,000	355,173	359,938
Earnings Retained	557,685	585,573	590,338
Closing Shareholder's Funds	11,841,138	12,426,711	13,017,049
Pre-Tax & Subvention Return on Average Shareholder's Funds	13.08%	13.09%	12.60%
