The Group Manager: Corporate Services advised it was not mentioned initially, that the OAG investigation would affect the Audit process and noted that staff had spent a lot of time answering queries and this had resulted in why other work had been delayed.

Cr Eatwell noted that this had been of concern to him and that if there are issues that himself or any other elected member needed to take this item to the authorities, that we should take this to them as it impedes the purpose of the statutory obligations in place.

The Group Manager: Corporate Services advised that concerns had been raised with the Audit Director, Audit New Zealand and there is a good working relationship between Council and Audit New Zealand.

The Chief Executive noted that if Council had been advised in the first instance of any proposed delays due to the OAG investigation, then it should have been a stand-alone investigation which would be been supported.

Variance Analysis

Variance Analysis

Operating Revenue	
Rates revenue	This is due to a misallocation of written off penalties which are causing an overstatement. A system review is being undertaken to correct the overstatement. Also water rates are above budget now so this variance is expected increase over summer.
User fees and charges	Refuse site fees above budget by \$73k due to seasonal fluctuation. Vehicle operations are above budget by \$23k because of 3 additional vehicles and more travel. Animal control, while under budget by \$34k, is higher by \$14k on last year's fees & charges.
Grants and Subsidies	\$946k WCWT MBIE grant was budgeted in the previous financial year while the \$546k responsible camping grant was unbudgeted but will be offset by operational and capital expenditure. NZTA Grant is \$163k below budget but is expected to pick up when ongoing maintenance works are claimed.
Other Income	Interest Revenue is below budget \$11.5k, this is due to lower cash flow due to unbudgeted expenditure. HR services recoveries \$29k budget is unspent due to staff sharing costs with WCRC.
Operating Expenditure	
Personnel costs	Unfilled vacancies lowered expected personnel costs, offset by increased expenditure on recruitment, contractors and consultant's costs. A number of positions have recently been filled which should see the variance gap close.
Administrative costs	Photocopying and printing costs across all departments are showing savings of \$24k as the internet becomes the preferred method of communication. Library programme expenses, currently \$5.4k under budget, are expected to increase now that the digital learning centre has opened.
Operating costs	Transport maintenance costs are over budget by \$207k due to storm and older installation repairs and maintenance. Waste water maintenance is \$155k over budget mainly due to major maintenance work in Haast, \$55k, and Hokitika, \$73k. Franz water monitoring and consultancy costs are over by \$25k. Responsible camping's operation expenses of \$85k will be offset by a government grant, and HR services are \$66k over budget as a result of cost sharing 3 roles with WRC, now under contractors costs.
Grants and Donations	
Other Expenditure	
Depreciation	Depreciation is above budget. Budgeted depreciation was lowered by the auditor through the LTP process. Depreciation is forecasted to be above budget at the end of the financial year.
(Gain)/Loss on Swaps	Swap values are based on market factors and are difficult to predict. Any gain or loss on swaps would not materialise unless swaps were cashed in before maturity.
