SCANNED

Dear Sir/Madam

We understand from residents of Neil's Beach that the Waste Recycling Trailer currently situated there will shortly be removed and there will be no rubbish collection by Council. Please confirm that this is correct and if so when the trailer will be moved.

As a property and house owner at 16 O'Leary place we are very concerned about this move as it will result in huge piles of rubbish around the place. Property owners from Jackson Bay and surrounds use this facility and for the few thousand dollars a year to empty it Council is surely creating a large waste disposal issue that will cost the Council more in the long term.

The dump is not open at the hours most of us travel to/from our homes and with the whitebaiting season coming up we believe this is very short sighted. For reasonably high rates we will now be getting little for these fees, no power, no sewerage, no waste disposal etc.

As your Council discusses whether it can build a multi million dollar road from Jackson through to Milford I believe you should be concentrating first on getting the basics of waste disposal right.

Please ensure the Mayor and Councillors all receive this email and I await your response.

Thank you.

Dear Sir/Madam,

As ratepayers of Jackson Bay we write regarding the removal of the rubbish trailer from Neil's Beach. This is totally unacceptable as we already pay substantial rates for literally no services from WDC (ie no water, no sewage. We pay rates for libraries,swimming pools which we have no access to.) Perhaps less of our rates money should be supporting Westland Development's money wasting proposals. Westland Developments is completely owned by rate payers.

Regards,
Brian and Elizabeth Deans.
